

POLLINATORS AT WORK

DO NOT DISTURB

Stingless Mason bees have been placed in this area to help our habitat & ecosystem grow stronger.

LEARN ABOUT MASON BEES:

DO NOT STING – There is no hive or queen to protect, so they are non-aggressive and do not sting.

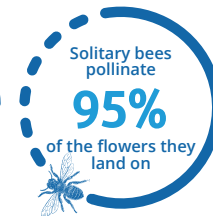

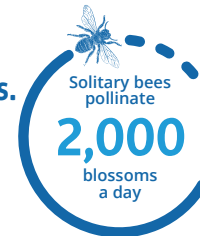

SOLITARY BEES – They work alone, find their own food, build their own nest and lay their own eggs.

BELLY FLOPPERS – Mason bees BELLY FLOP onto flowers and get pollen all over their bodies.

ONE OF NATURE'S BEST POLLINATORS – Mason bees pollinate 95% of the flowers they land on.

HARD WORKERS – Mason bees visit up to 2,000 flowers a day and work in cool or rainy weather.

MERMAID BEES – Kids often call mason bees "mermaid bees" because they have a green iridescent sheen that sets them apart from other bees.
